SUMMARY

MCA candidate with hands-on experience building machine learning, computer vision, and generative AI projects in Python. Experienced in structuring data workflows, comparing model performance, and documenting results. Comfortable translating requirements into implementation tasks, checking outputs, and resolving issues. Interested in applying reliable analytical methods to data-intensive problems.

TECHNICAL SKILLS

Languages: Python, SQL, Java, C++

Data/ML: Pandas, scikit-learn, PyTorch, NLP, TF-IDF, regression, classification

Analytics: Power BI, DAX, Excel, data reporting

Tools/Platforms: Git, AWS, Azure, MySQL, SQL Server, REST APIs

SELECTED PROJECTS

ModelBench — Reproducible Tabular ML Experiments

Python · scikit-learn

- Built a local-first workflow to compare regression and classification models. Kept preprocessing inside training pipelines to reduce data leakage and added optional cross-validation for model comparisons.
- Created a Python CLI and browser-based lab with portable HTML and JSON reports for reviewing and sharing results.

github.com/damnsunnyy/ModelBench

Stanford Dog Breed Recognition

Python · PyTorch · ResNet-18

- Built a 120-class image classifier on the Stanford Dogs dataset; evaluated a saved checkpoint on the official test partition, achieving 66.08% top-1 accuracy and 64.92% macro F1 in a single-run baseline.
- Recorded per-breed evaluation results and documented the methodology so the single-run baseline is transparent and reviewable.

github.com/damnsunnyy/stanford-dog-breed-recognition

SANA — Personalized AI Assistant

Python · Whisper · ElevenLabs · LLM APIs

- Designed a voice-driven assistant combining Whisper speech-to-text, language-model APIs, and ElevenLabs text-to-speech to deliver spoken AI responses. Organized components into a modular workflow to support maintenance and future improvements.

EXPERIENCE

Web Design Intern — Poho

2 months

- Customized WordPress websites to client requirements, implementing content, layout, and UI updates. Reviewed responsive behavior across screen sizes, resolved visual issues, and coordinated timely changes with teammates.

EDUCATION & CERTIFICATION

Master of Computer Applications (MCA) — MIT World Peace University, Pune *(Pursuing)*

Bachelor of Computer Applications (BCA) — LNCT College, Bhopal | **Embedded Systems Bootcamp** — Robonauts India
